

**Focus:** Building capacity for IEP team members to support a student in the selection, acquisition, and use of assistive technology.

What are you doing this year that addresses this focus?

Are there additional ways you can support this focus?

What supports do you need to address this focus?

**Focus:** Support an integrated assessment of accessible instructional materials, flexible digital materials, online learning needs, and emergent technologies. An example of "integrated assessment" would be doing an assessment for accessible instructional materials based on the same reading assessment tools used by all students in a school or district.
